

## Vocation Match:

# Discover where God may be calling you

With so many directions your life can take, it's not easy to figure out where God is calling you.

VISION Vocation Match is a fun, simple tool to help you find the best path.

The online Vocation Match process:

- You'll be asked a series of questions that will help you gain insight about yourself.
- Your answers create a profile that is then matched with religious orders and organizations that might interest you.

You can go through the Match as many times as you'd like, change your answers, and study your results.

Your profile is private and you have complete control over who—if anyone—receives it.

If you choose to, you can email your profile to the religious communities you matched with.

Go to [VocationMatch.com](https://VocationMatch.com) and learn more about where God may be calling you.

### *Assignment*

Visit VISION Vocation Match, answer the questions, and create a profile. Go to the results page and see which religious communities or organizations you matched with. Be prepared to discuss with the class what you learned about religious life and the different types of vocations.

For additional resources, go to the Youth Ministers Tab at [VocationNetwork.org](https://VocationNetwork.org).
